## **Forward-looking Statements**

Statements in this press release that are not historical in nature, including those concerning the company's current expectations about its future results, are "forward-looking" statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as "may," "should," "expects," "provides," "anticipates," "assumes," "can," "will," "meets," "could," "likely," "intends," "might," "predicts," "seeks," "would," "believes," "estimates," "plans," "continues," "quidance," or "outlook" or similar expressions. These forward-looking statements reflect the company's current expectations about future requirements and needs, results, levels of activity, performance, or achievements. Some of the factors that could cause actual results to differ materially from the forward-looking statements contained herein include, without limitation: the impact of the COVID-19 pandemic on the economy, our clients and client demand for our services, and our ability to sell and provide services, including the measures taken by governmental authorities and businesses in response to the pandemic, which may cause or contribute to other risks and uncertainties that we face; failure to achieve expected utilization rates, billing rates and the number of revenue-generating professionals; inability to expand or adjust our service offerings in response to market demands; our dependence on renewal of client-based services; dependence on new business and retention of current clients and qualified personnel; failure to maintain third-party provider relationships and strategic alliances; inability to license technology to and from third parties; the impairment of goodwill; various factors related to income and other taxes; difficulties in successfully integrating the businesses we acquire and achieving expected benefits from such acquisitions; risks relating to privacy, information security, and related laws and standards; and a general downturn in market conditions. These forward-looking statements involve known and unknown risks, uncertainties, and other factors, including, among others, those described under "Item 1A. Risk Factors" in Huron's Annual Report on Form 10-K for the year ended December 31, 2020 that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance, or achievements expressed or implied by these forward-looking statements. The company disclaims any obligation to update or revise any forward-looking statements as a result of new information or future events, or for any other reason.

# 2 SERVICES OVERVIEW

## Healthcare Segment Overview

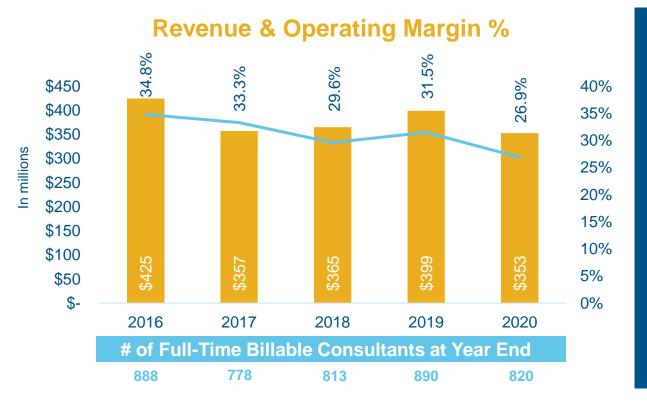

Health systems, hospitals and medical clinics are under immense pressure to improve clinical outcomes and reduce the cost of providing patient care. Investing in new partnerships, clinical services and technology is not enough to create meaningful and substantive change. To succeed long term, healthcare organizations must empower leaders, clinicians, employees, affiliates and communities to build cultures that foster innovation to achieve the best outcomes for patients. We support organizations through optimizing revenue cycle reimbursements, implementing cost reduction solutions and process improvements, developing digital strategies, and through delivering technology integration and interoperability. By building innovation capabilities and accelerating key growth initiatives, we help enable organizations to own the future, instead of being disrupted by it.

# **Education Segment Overview**

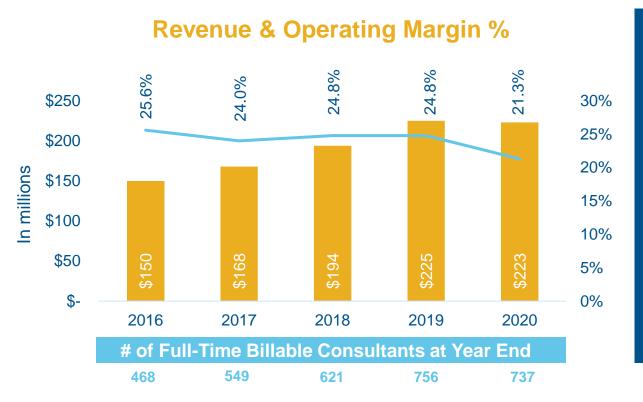

Higher education institutions, academic medical centers and research organizations face mounting pressures from increased public scrutiny, evolving student demographics and declining enrollments and public funding. At the same time, these organizations are trying to improve outcomes and reduce costs in a dynamic, disruptive environment. To thrive long term, institutions must design the path forward with an intentional approach and innovative thinking, whereby stakeholders across the entire institution rally around a shared vision and embrace the hard work of effecting change. We help organizations tackle today's challenges while accelerating growth initiatives, enabling them to own their future, instead of being disrupted by it.

# Reconciliations Of Non-GAAP Measures To Comparable GAAP Measures

In evaluating the company's financial performance and outlook, management uses EBITDA, adjusted EBITDA, adjusted EBITDA as a percentage of revenues, free cash flow, adjusted net income from continuing operations, and adjusted diluted earnings per share from continuing operations, which are non-GAAP measures. Management uses these non-GAAP financial measures to gain an understanding of the company's comparative operating performance (when comparing such results with previous periods or forecasts). These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect the company's ongoing business in a manner that allows for meaningful period-toperiod comparisons. Management also uses these non-GAAP financial measures when publicly providing their business outlook. for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. Management believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does, if they so choose, and in comparing in a consistent manner Huron's current financial results with Huron's past financial results. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with accounting principles generally accepted in the United States.
