PROXY STATEMENT
for
ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement is furnished in connection with the solicitation of proxies to be voted at the 2009 Annual Meeting of Stockholders of Huron Consulting Group Inc. (the "Company," "Huron," "we" or "us"). The 2009 Annual Meeting of Stockholders (the "Annual Meeting") will be held on Wednesday, May 6, 2009 at 1:00 p.m., Central Daylight Savings Time, at the Company's corporate offices located at 550 West Van Buren Street, Chicago, Illinois 60607. This Proxy Statement and the accompanying proxy card are first being mailed to stockholders on or about March 26, 2009.

GENERAL INFORMATION ABOUT THE MEETING

Quorum and Voting Requirements

The Company has one class of common stock. Each share of common stock is entitled to one vote on each matter to be voted upon at the Annual Meeting. Stockholders do not have the right to cumulate votes in the election of directors. Only stockholders of record at the close of business on March 10, 2009 (the "Record Date") will be entitled to vote at the Annual Meeting. As of the Record Date, there were 21,588,052 shares of common stock issued and outstanding.

The accompanying proxy is solicited from the holders of record of the common stock on behalf of the board of directors of the Company and is revocable at any time by giving written notice of revocation to the Secretary of the Company prior to the Annual Meeting or by executing and delivering a later-dated proxy by mail prior to the Annual Meeting. Furthermore, the stockholders who are present at the Annual Meeting may revoke their proxies and vote in person.

If your shares are held in a bank or brokerage account, you will receive proxy materials from your bank or broker, which will include a voting instruction form. If you would like to revoke a proxy given to your bank or broker, you must follow their instructions. If you would like to attend the Annual Meeting and vote these shares in person, you must obtain a proxy from your bank or broker. You must request the proxy from your bank or broker; they will not automatically supply one to you.

All shares of the Company's common stock represented by properly executed and unrevoked proxies will be voted by the proxies in accordance with the directions given therein. Where no instructions are indicated, properly executed proxies will be voted "FOR" the proposals set forth in this Proxy Statement for consideration at the Annual Meeting. The directors expect shares of common stock held by executive officers and directors of the Company will be voted "FOR" such proposals.

A quorum consisting of at least one-third of shares of common stock issued and outstanding must be present at the meeting for any business to be conducted. Shares of common stock entitled to vote and represented by properly executed, returned and unrevoked proxies, including shares with respect to which votes are withheld, abstentions are cast or there are broker non-votes, will be considered present at the meeting for purposes of determining a quorum.

PROPOSAL 1
ELECTION OF DIRECTORS

Board of Directors

The Company's third amended and restated certificate of incorporation divides the Company's board of directors into three classes, with each class being elected to a three-year term.

The board of directors has nominated DuBose Ausley and John S. Moody as Class II Directors to be voted upon at the 2009 Annual Meeting. James D. Edwards, Gary E. Holdren and John McCartney are Class III Directors serving terms ending at the 2010 Annual Meeting. H. Eugene Lockhart and George E. Massaro are Class I Directors serving terms ending at the 2011 Annual Meeting.

This Proxy Statement relates only to the solicitation of proxies from the stockholders with respect to the election of two Class II Directors to be elected by them and the other matters described herein. The board of directors knows of no reason that Mr. Ausley or Mr. Moody might be unavailable to serve as the Class II Directors, and each has expressed an intention to serve, if elected. If either Mr. Ausley or Mr. Moody is unable to serve, the shares represented by all valid proxies will be voted "FOR" the election of such substitute nominee as the board of directors may recommend. There are no arrangements or understandings between any of the persons nominated to be a Class II Director and any other person pursuant to which any of such nominees was selected.

The election of a director requires the affirmative vote of a plurality of the shares of common stock present in person or represented by proxy at the Annual Meeting that are voted, provided that a quorum is represented at the meeting. Shares of common stock held by stockholders electing to abstain from voting and "broker non-votes" will be counted toward the presence of a quorum but will not be considered present and voting. Therefore, abstentions and "broker non-votes" will have no impact on the election of directors. Properly executed proxies submitted pursuant to this solicitation will be voted "FOR" the election of Mr. Ausley and Mr. Moody as Class II Directors, unless specified otherwise.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE ELECTION OF MR. AUSLEY AND MR. MOODY AS CLASS II DIRECTORS.

Director Independence

Our Corporate Governance Guidelines require that the board of directors make an annual determination regarding the independence of each of our directors. The board of directors has determined that Messrs. Ausley, Edwards, Lockhart, McCartney and Moody are “independent” as defined in the applicable listing standards of The NASDAQ Stock Market, Inc. (“NASDAQ”). In making its determination, the board of directors considered the standards of independence set forth in the NASDAQ Corporate Governance Listing Standards and all relevant facts and circumstances to ascertain whether there was any relationship between a director and the Company that, in the opinion of the board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of the director, or any material relationship with the Company (either directly, or as a partner, stockholder or officer of an organization that has a relationship with the Company).

Board Meetings and Committees

The board of directors conducts its business through meetings of the full board, actions taken by written consent in lieu of meetings and by the actions of its committees. During 2008, the board of directors held ten meetings.

During 2008, all directors attended at least 96% of the meetings of the board of directors and committees on which they served. Although the Company does not have a formal policy regarding director attendance at our Annual Meeting of Stockholders, we encourage directors to attend. All directors, except Mr. Lockhart, who had a prior commitment, attended the 2008 Annual Meeting of Stockholders.

The board of directors created the position of lead director which, until the May 2008 board meeting, was rotated among the independent directors on a quarterly basis. At the May 2008 board meeting, the board amended the Corporate Governance Guidelines, among other things, to elect a lead director for a one-year term at the annual May board meeting. Each year, the board will consider whether to rotate the position of lead director. On May 7, 2008, the board elected Mr. Edwards to serve as lead director until the May 2009 board meeting. The lead director’s duties are, in consultation with the Chairman of the Board, to (1) develop the agendas for the board meetings; (2) determine the appropriate scheduling for board meetings; (3) assess the quality, quantity and timeliness of information provided from Company management to the board; and (4) assist the Nominating and Corporate Governance Committee in monitoring and implementing the Corporate Governance Guidelines. During 2008, Messrs. Moody, McCartney and Edwards served as lead director.

The board of directors operates in part through its three committees: Audit, Compensation, and Nominating and Corporate Governance. All committee members are “independent” as defined in the applicable listing standards of NASDAQ, “non-employee directors” within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934 (the “1934 Act”) and “outside directors” within the meaning of Section 162(m) of the Internal Revenue Code.

Audit Committee. The Audit Committee responsibilities include overseeing our accounting and financial reporting processes, overseeing the audits of our financial statements and internal control over financial reporting, and retaining and discharging our auditors. The Audit Committee met six times in 2008. The members of the Audit Committee are Messrs. McCartney (Chairman), Edwards and Ausley. The board of directors has

[Table of Contents](#)

determined that each Audit Committee member has sufficient knowledge in financial and auditing matters to serve on the Audit Committee. The board of directors has also determined that each of Messrs. McCartney and Edwards is an “audit committee financial expert,” as defined by the applicable securities regulations.

The Report of the Audit Committee for the fiscal year ended December 31, 2008 appears below under the caption “PROPOSAL 3—RATIFICATION OF APPOINTMENT OF AUDITOR—Report of the Audit Committee.”

The Audit Committee charter is available on the Company’s web site at www.huronconsultinggroup.com.

Compensation Committee. The Compensation Committee responsibilities include overseeing our compensation and benefit plans, including all compensation arrangements for executive officers and directors. The Compensation Committee met four times in 2008. The members of the Compensation Committee are Messrs. Moody (Chairman), Ausley, Lockhart and McCartney.

Management assists the Compensation Committee in the performance of its duties. Each year, the Chief Executive Officer (the “CEO”) reviews the performance and compensation of each of the executive officers and makes recommendations to the Compensation Committee with respect to base pay, annual cash incentives and long-term equity incentives. The Compensation Committee may exercise its discretion in modifying any recommended awards to executive officers. In 2008, the CEO participated in all of the Compensation Committee’s general meetings, in all of the telephonic meetings and in all of the executive sessions, except for those in which the Compensation Committee considered the CEO’s performance, compensation and incentives.

The Report of the Compensation Committee on Executive Compensation appears below under the caption “EXECUTIVE COMPENSATION—Compensation Committee Report.”

The Compensation Committee charter is available on the Company’s web site at www.huronconsultinggroup.com.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee responsibilities include identifying and recommending to the board of directors appropriate director nominee candidates and providing oversight with respect to corporate governance matters. The Nominating and Corporate Governance Committee met three times in 2008. The members of the Nominating and Corporate Governance Committee are Messrs. Edwards (Chairman), Ausley, Lockhart and Moody.

The Nominating and Corporate Governance Committee charter is available on the Company’s web site at www.huronconsultinggroup.com.

Directors may be nominated by the board of directors or by stockholders in accordance with the bylaws of the Company. The Nominating and Corporate Governance Committee will review all candidates for nomination to the board of directors, including those proposed by stockholders as provided below. The Nominating and Corporate Governance Committee reviews the person’s judgment, experience, independence, understanding of the Company’s business or other related industries, and such other factors as the Nominating and Corporate Governance Committee determines are relevant in light of the needs of the board of directors and the Company. The board of directors believes that its nominees should reflect over time a diversity of experience, gender, race, ethnicity and age. The Nominating and Corporate Governance Committee selects qualified candidates and reviews its recommendations with the board of directors, which will decide whether to invite the candidate to be a nominee for election to the board of directors.

If the Nominating and Corporate Governance Committee receives a nominee recommendation from a stockholder or group of stockholders that has beneficially owned more than 5% of the Company’s voting common stock for at least one year as of the date of the recommendation, the name of the candidate, the name(s)

Table of Contents

of the stockholder(s) who recommended the candidate, and whether the Nominating and Corporate Governance Committee chose to nominate the candidate will be disclosed in the proxy statement, if the consent of both the stockholder and the candidate has been received.

For a stockholder to submit a candidate for consideration by the Nominating and Corporate Governance Committee, a stockholder must notify the Company's Corporate Secretary. In addition, the Company's bylaws permit stockholders to nominate directors at a stockholders' meeting. To make a director nomination at the Annual Meeting, a stockholder must notify the Company's Corporate Secretary within the time periods specified under "Submission of Stockholder Proposals" below in the Proxy Statement. Compensation of Directors

During 2008, we paid each of our non-employee directors an annual cash retainer of \$50,000 and \$1,000 for each meeting of the board of directors or any committee of the board that he attended. On December 4, 2007, the board of directors, upon recommendation of the Compensation Committee, elected to increase each year the annual cash retainer by \$10,000. In 2009, we will pay each of our non-employee directors an annual cash retainer of \$60,000 and \$1,000 for each meeting of the board of directors or any committee of the board that he attends. We also pay an annual fee of \$10,000 to the Chairperson of the Audit Committee and \$7,500 to the Chairpersons of each of the Compensation Committee and Nominating and Corporate Governance Committee for chairing the committees. All of our directors are reimbursed for out-of-pocket expenses for attending board and committee meetings. In 2005 and 2006, each new non-employee director received a restricted stock award of 15,000 shares. On December 4, 2007, the board of directors, upon the recommendation of the Compensation Committee, elected to change the initial grant to new directors to a number of shares of restricted stock equal to approximately \$400,000, based on the closing stock price on the date immediately preceding the grant date, which vest ratably over the following 12 calendar quarters.

In addition, each non-employee director receives an annual grant of shares on the date of the Company’s annual meeting. On May 7, 2008, each non-employee director received 3,450 shares, which vest ratably over the

following 12 calendar quarters. Each share grant was equivalent to approximately \$160,000, based on the closing stock price on May 6, 2008. On December 4, 2007, the board of directors, upon the recommendation of the Compensation Committee, elected to increase each year the value of shares in the annual grant to directors by a number of shares of restricted stock approximately equal to \$10,000, based on the closing stock price on the date immediately preceding each year's annual meeting. In 2009, on the date of the Company's Annual Meeting, each non-employee director will be granted a number of shares approximately equal to \$170,000, based on the closing stock price on the date immediately preceding the Annual Meeting. Although eligible to do so, no director has elected to participate in our deferred compensation plan, which is described on page 24.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

Huron operates in a highly competitive and challenging environment and its compensation packages are designed to attract and retain talented executives who can execute the Company's growth strategy. While the Company provides what it considers competitive base salaries, it also believes that a substantial portion of the compensation of each executive should consist of at-risk pay that takes into account the Company's growth in revenues before reimbursable expenses ("net revenues"), the Company's profitability, measured by diluted earnings per share, earnings before interest, taxes, depreciation and amortization ("EBITDA") and individual performance.

During 2008, the Compensation Committee did not rely on benchmarking against an industry or other peer group in setting compensation for the executive officers, although, as previously disclosed, the Compensation Committee did retain a compensation consultant and engaged in benchmarking when negotiating a new agreement with the CEO in late 2006. The Company competes against a number of companies, many of which are not public, including the consulting practices of major accounting firms, other small boutique consulting firms and publicly traded consulting firms. Management gathers publicly available competitive compensation data, which is considered, along with other factors discussed below, in making compensation decisions. Although the Compensation Committee has determined not to establish a compensation system based on benchmarking to a set of peer companies at this time, the Compensation Committee intends to review this position annually and may, from time to time if market factors warrant, decide to engage a compensation consultant and engage in competitive benchmarking when setting the compensation of its executive officers.

Management Participation in Setting Executive Compensation

The CEO participates in all of the Compensation Committee's general meetings, in all of the telephonic meetings and in all of the executive sessions of the Compensation Committee, except for those in which the Compensation Committee considers the CEO's performance, compensation and incentives. In connection with these meetings, the CEO makes recommendations to the Compensation Committee regarding each element of compensation for each of the executive officers who report to him. His recommendations take into account the Company's overall performance, compensation data available about competitors of the Company, individual performance, wealth accumulation and internal pay equity considerations. The Compensation Committee reviews and approves or revises these recommendations as it deems appropriate based on its independent evaluation of those same factors. The Company's Human Resources and Legal departments support the CEO's and Compensation Committee's work by providing publicly available data and analysis when requested by the Compensation Committee.

Huron Compensation Program Elements

Compensation packages for Huron managing directors, including the executive officers, have three components: base salary, annual cash incentive and long-term equity incentive. Consistent with the Company's pay-for-performance philosophy, a significant portion of each executive's total compensation is at risk if either the established performance goals are not met or if the executive does not remain employed by the Company.

Base Salary. Base salaries are considered as part of the annual performance review process at the beginning of each year. In making base salary decisions for the executive officers, other than the CEO, the Compensation Committee primarily considers the CEO's assessment of the scope of each executive's responsibilities, contribution and performance, as well as the base salary of each executive officer (other than the CEO) relative to the other executive officers of the Company. The CEO's base salary was established by contract on January 29, 2007 when he entered into a five-year contract with the Company that specified his base salary for each of those years.

[Table of Contents](#)

Annual Cash Incentive. The annual cash incentive for executive officers is designed to reward Company financial performance and individual contribution. At the beginning of 2008, the Compensation Committee established a target bonus pool for the annual cash incentive for all employees, including the executive officers. In order for the bonus pool to be fully funded, the Company had to exceed pre-established financial measures.

The Compensation Committee then establishes a total annual cash incentive target that can be earned by each executive officer based on the recommendation of the CEO. The target incentive for the CEO is set by his January 29, 2007 contract at 100% of base salary. Target amounts for other executive officers are generally 100% of base salary as well. The actual amount earned by an individual may be more or less than the target, based upon the performance of the Company and the executive, as determined in the discretion of the CEO and the Compensation Committee following the end of the year. Individual performance is irrelevant if the bonus pool is not funded.

In the case of the CEO, the Compensation Committee establishes individual goals annually, no later than 90 days following the end of the prior year. The 2008 goals for the CEO's annual cash incentive consisted principally of the following: Company financial performance, retention of top performing managing directors, successful completion and integration of accretive acquisitions, adequately addressing underperforming individuals or areas of the Company's business, and increases in sales to significant clients. The Company does not set specific individual goals for the other executive officers. The other executive officers are expected, in each of their respective roles and areas of expertise and responsibility, to contribute to the achievement of the goals established for the CEO. The CEO assesses the contribution of each named executive officer to the achievement of the goals set for the CEO and other individual contributions to the Company's success within each executive's area of expertise and responsibility. The Compensation Committee, in its discretion, determines the total dollar amount, if any, for each named executive, other than the CEO, after consultation with and in consideration of the recommendations of the CEO.

Long-Term Equity Incentive. The long-term equity incentive for executive officers is designed to focus management on increasing stockholder value and to provide a vehicle to share the benefits of the Company's growth with those who create it. Many of Huron's competitors are partnerships, and Huron believes its ability to offer a publicly traded equity interest in the Company creates a competitive advantage when recruiting executives and managing directors, as well as a retention incentive to those who are currently with the Company.

Currently, restricted stock is granted annually to executive officers who are expected to contribute to the Company's successful execution of its long-term goals and objectives. In determining new long-term equity incentive awards, the Compensation Committee reviews the total equity pool recommended by the CEO to reward the performance of executive officers, practice leaders and managing directors in the various practices, and the portion of the total to grant to the executive officers. To establish individual grant amounts for executive officers, in 2008, the Compensation Committee considered the recommendations of the CEO, the performance of each individual in the prior year (determined as described above), each individual's anticipated future contributions to the business, internal pay equity and wealth accumulation. The Compensation Committee did not assign a weighting to any of the specific factors considered. Huron has not adopted a policy requiring officers and directors to hold any portion of their vested equity grants. The Compensation Committee will periodically consider, and did consider most recently in December 2008, whether to adopt a formal stock retention policy.

Other Compensation

Generally, perquisites are not a significant component of compensation for Huron executives. The Company provides certain benefits to all of its managing directors and executive officers. These benefits are enhanced disability and life insurance benefits, reimbursement of all or a portion of the cost of an executive physical, and a Nonqualified Deferred Compensation Plan (the "DCP"). More information on the perquisites provided is described in Footnote 5 to the Summary Compensation Table on page 18 and more information on the DCP is set forth on page 24.

Compensation of the CEO

The compensation of the CEO is governed by the terms of the amended and restated senior management agreement entered into on January 29, 2007 as amended and restated on December 12, 2008 solely to make changes necessary to comply with Section 409A of the Internal Revenue Code. In 2008, the base salary of the CEO and his target cash incentive were each increased by \$50,000, as provided in his employment agreement. In addition, based on the financial results of the Company in 2007, total shareholder return in 2007, and his achievement of his other performance goals described above, the CEO was granted restricted stock with a grant date aggregate fair value of \$4,317,300, based on the closing price of Huron stock on February 12, 2008, the last trading day prior to Compensation Committee action.

The CEO's amended and restated employment agreement is described in detail on page 19.

Compensation of Executive Officers Other Than the CEO

As described above, each year the CEO reviews the performance of each of the executive officers and makes recommendations to the Compensation Committee with respect to base pay, annual cash incentive and long-term equity incentive. The CEO recommends a compensation package to the Compensation Committee for each executive officer based on Company performance, each individual's scope of responsibility, and the CEO's assessment, based on his business experience and judgment, of the individual's current and potential future contribution, as well as the individual's contribution relative to the other executive officers. The Compensation Committee considers these recommendations in making its decisions with regard to the executive officers and approves or revises them as appropriate in making its decisions.

In 2008, the primary components of compensation for executive officers consisted of base salary, an annual cash incentive targeted at 100% of base salary and long-term equity incentives. Huron does not have a formula for any specific element of the compensation package or for allocating between the cash and non-cash components or the short-term and long-term components of compensation. Rather, decisions are made by the Compensation Committee, based, in part, on the recommendations of the CEO.

In 2008, the Compensation Committee, based on the recommendation of the CEO, set base salaries as shown in the Summary Compensation Table, page 18. In determining that there be no increase in base salary for the named executives (other than the CEO), the committee considered informal data provided by management regarding market norms and the level of base salary increases granted in 2007.

Target incentives for 2008 were set at 100% of base salary to establish a structure for executive compensation that is, in the belief of the Compensation Committee, consistent with the Company's desire to retain a strong link between pay and performance, and sufficient to create a significant variable opportunity for each executive to incentivize strong performance. Based upon the Company's 2008 performance, the Compensation Committee determined not to pay cash incentives to the executive officers.

In determining the size of the 2008 equity grants, the Compensation Committee considered each executive's prior and current outstanding grants with an objective to provide wealth accumulation consistent with the performance of the Company. In addition, each executive's grant was considered in light of the CEO's recommendations, the CEO's and committee's review of the individual's past performance, the individual's potential to contribute in the future, and the amount of the grant relative to the total pool available. There is no formula used to determine annual grants.

Prior to 2008, the Company had entered into senior management agreements with all of its executive officers other than Ms. Delgado, with whom it entered into such an agreement on December 30, 2008, effective January 1, 2008, described under Employment and Severance Agreements below. Ms. Delgado's senior management agreement is substantially consistent with the agreements entered into with other executive officers and the compensation she is entitled to is substantially consistent with how she was otherwise being

[Table of Contents](#)

compensated. Each of the Company's senior management agreements, other than the one with Ms. Delgado, was amended in December 2008 solely to make changes necessary to comply with Section 409A of the Internal Revenue Code. On February 9, 2009, Messrs. Burge and Broadhurst and Ms. Sawall entered into amended and restated senior management agreements which incorporated their previous respective senior management agreements and their most recent amendments into one document. No substantive amendments were made to the terms in connection with these most recent amendments.

Regulatory Limitations

Section 162(m) of the Internal Revenue Code generally limits the deductibility for Federal income tax purposes of compensation in excess of \$1 million to the chief executive officer or any of the next four most highly paid executive officers of a publicly held corporation. Compensation exceeding \$1 million may be deducted for Federal income tax purposes if compensation is paid pursuant to a performance-based, nondiscretionary plan that is approved by stockholders. The Compensation Committee will exercise its discretion in determining whether to conform compensation plans payable to these executive officers to the deductibility requirements of Section 162(m).

The amended and restated agreement has an initial term through January 28, 2012, and after that automatically renews for additional one-year periods on an annual basis unless, at least 60 days prior to the expiration of the then-current term, we or Mr. Holdren provide notice otherwise. The agreement provides that Mr. Holdren will report to our board of directors. Under the terms of the agreement, Mr. Holdren's annual base salary would have increased by \$50,000 to \$1,200,000 in 2009, as the agreement provides that it increase by \$50,000 annually during the initial term. However, in 2009 Mr. Holdren declined to accept the base salary increase. His annual performance incentive target is 100% of his base salary. The board of

directors determines any annual incentive actually paid to Mr. Holdren based on the achievement of performance goals they set. Mr. Holdren received a one-time grant of 250,000 restricted stock units in connection with entering into an amended and restated senior management agreement on January 29, 2007. The restricted stock units vest ratably over five years from the date of grant and will be settled in shares of Company stock after Mr. Holdren's employment terminates. Mr. Holdren is also eligible for periodic grants of equity at the discretion of the board of directors.

Mr. Holdren's agreement provides that, if his employment is terminated by us without cause or if he resigns for good reason (as such terms are defined in the agreement), Mr. Holdren will be entitled to severance pay equal to one year of base salary and target bonus, payable over the 12-month period following termination, along with continuation of medical and dental benefits during such 12-month period. In addition, all outstanding equity grants shall accelerate. Mr. Holdren is also entitled to coverage under our directors' and officers' insurance policy for six years following his termination, subject to specified exceptions and limitations. All other Company-provided perquisites and benefits are subject to the treatment provided under the terms of the applicable plans or programs except that, if Mr. Holdren is employed for the full five-year term of his current senior management agreement and his employment is terminated subsequently, he and his spouse will be entitled to obtain medical, dental and vision insurance offered by the Company to employees, at their own expense, to age 65. Mr. Holdren is entitled to one year's base salary and target bonus, payable over the 12-month period following his permanent disability, along with acceleration of all outstanding equity and continuation of medical benefits for six months. In the event of such termination, he will also be entitled to a pro rata bonus for the year during which his termination occurs, 36 months of benefit continuation and, if necessary, an excise tax gross-up payment.

The Company maintains the DCP, which became effective July 1, 2006. The DCP permits managing directors and executive officers to elect to defer up to 75% of their base salary and 100% of their annual cash incentive into a deferred compensation account and to choose from a number of generally available investment vehicles. Earnings are credited based on earnings of the investment options selected by the participant. Huron does not match any amounts deferred or otherwise contribute to the DCP except to make restoration payments to the accounts of participants who forego 401k match as a result of participation in the DCP. Deferral elections for base salary and any bonus must be made in the calendar year prior to earning such base salary or within 30 days of becoming eligible for the plan. Independent directors may also defer up to 100% of their retainer and meeting fees into the DCP. The plan was amended effective January 1, 2009 to comply with Section 409A of the Internal Revenue Code.

Payments from the plan automatically begin upon termination of employment or separation from service as a director. Key employees, including executive officers, must wait six months after termination to receive payment from the plan. Participants may elect payment in a lump sum or annual installments for up to 15 years. Upon proof of financial hardship and approval from the Compensation Committee, a participant may be allowed an early distribution. Participants may also elect to receive payments prior to termination through a scheduled distribution.

Gary Holdren contributed \$172,188 and Gary Burge contributed \$40,000 from their respective base salaries to the DCP in 2008. With respect to Mr. Holdren, pursuant to his Restricted Stock Unit Agreement, 50,000 restricted stock units that vested as part of his 250,000 restricted stock unit award were deferred on vesting but will not be settled until he terminates employment as described on page 19. The value of the restricted stock units is based on the closing price (\$71.47) of Huron stock on February 1, 2008, the day the restricted stock units vested.

Restrictive Covenants on Termination

No severance or benefits are paid if an executive is terminated for cause or resigns other than for good reason as defined in the executive's senior management agreement. Executives are subject to a confidentiality and non-disclosure covenant and, except for Mr. Holdren, for a period of 12 to 18 months following termination of employment for any reason, may not directly or indirectly solicit, induce or encourage any employee of the Company or any client of the Company to leave, alter or cease his or her relationship with it. In addition, Mr. Broadhurst may not, for a period of 12 months following his termination for any reason, provide services that are the same as or similar to those offered by the Company to any client of the Company whom he obtained as a client for the Company, to whom he provided services within the 12 months preceding termination of employment, or to whom he submitted a proposal during the six months prior to termination of employment.

Mr. Holdren may not provide services that are the same as or similar to those offered by the Company at the time of his termination to any client of the Company for a period of 24 months after his employment terminates for any reason. Additionally, for 36 months following termination of his employment for any reason, Mr. Holdren may not directly or indirectly solicit, induce or encourage any employee of the Company to leave, alter, or cease his or her relationship with it. For 24 months following termination of his employment for any reason, Mr. Holdren may not directly or indirectly solicit, induce or encourage any client of the Company to leave, alter or cease his or her relationship with it.

Compensation Committee Interlocks and Insider Participation

During fiscal 2008, there were no Compensation Committee interlocks and no insider participation in Compensation Committee decisions that were required to be reported under the rules and regulations of the 1934 Act.

Certain Relationships and Related Transactions

It is the responsibility of the Audit Committee to review and approve, ratify or disapprove of proposed transactions or courses of dealings with respect to which executive officers or directors or members of their immediate families have an interest (including all transactions required to be disclosed pursuant to the SEC's related person disclosure requirements). In addition, it is the policy of management and board members to discuss at a meeting of the board of directors, or the appropriate board committee, those transactions requiring disclosure pursuant to the SEC's related person disclosure requirements between Huron and a board member or a principal stockholder and members of their immediate families.

In addition, Huron has a Code of Business Conduct and Ethics (the "Code"), a copy of which is posted on our web page at www.huronconsultinggroup.com, that applies to directors and employees and their family members. The Code, among other things, has a policy governing conflicts of interest generally and, in particular, prohibiting ownership of interests in certain other businesses, entering into co-investments with clients or relationships that may be perceived as impairing the ability of the individual or Huron from performing his or its duties, as the case may be, in an impartial manner, and use of corporate property for improper personal gain. Any exceptions require disclosure and approval by the Chief Compliance Officer and, in the case of officers and directors, by the Audit Committee of the board of directors. The Code also prohibits Huron from making any personal loans or guaranteeing any personal obligations of board members and executive officers.

PROPOSAL 2
APPROVAL OF THE COMPANY'S 2004 OMNIBUS STOCK PLAN
AS AMENDED THROUGH THE SECOND AMENDMENT

In 2004, we adopted the 2004 Omnibus Stock Plan (the "Omnibus Plan"), which replaced our prior equity-based compensation plans. The Omnibus Plan was approved by stockholders on October 12, 2004, and authorized for issuance up to 2,141,000 shares for stock-based incentive compensation to eligible employees, executive officers, independent contractors and outside directors. On May 2, 2006, stockholders approved the First Amendment to the Omnibus Plan ("First Amendment") in order to authorize for issuance up to 2,100,000 additional shares, which we had determined we would need for issuance over the following three-year period. As of December 31, 2008, we had issued a total of 2,971,962 shares of common stock, including common stock to be issued upon the exercise of stock options, under the Omnibus Plan. We subsequently granted an additional 636,682 shares of restricted common stock to our executive officers, managing directors and other employees through March 10, 2009. Adding back forfeitures and shares withheld to cover taxes due on the lapse of restricted shares, we currently have 677,130 shares of common stock remaining available for grant. In addition, we will make annual grants to our independent directors and at-hire grants to new managing directors throughout the year. As a result, the board of directors has adopted an amendment to the Omnibus Plan (the "Second Amendment") to increase the number of shares available under the Omnibus Plan by 2,500,000 shares (to a total of 3,177,130 shares available for issuance or 15% of our currently outstanding shares of common stock), subject to stockholder approval of the Second Amendment. Based on our current plans and growth expectations, we believe that the shares requested in this proposal will be sufficient for the Company's needs for three years.

To enable the Company to grant performance-based compensation that is exempt from the \$1 million limit on tax-deductible compensation contained in Section 162(m) of the Internal Revenue Code, certain provisions of the Omnibus Plan must be periodically resubmitted to and reapproved by the stockholders. Shareholder approval of the Omnibus Plan as amended through the Second Amendment will constitute approval of the Omnibus Plan for purposes of Section 162(m) and of the increase in the number of shares authorized to be issued under the Omnibus Plan.

Equity compensation is a crucial component of our business model. We use equity compensation for our executives, practice leaders, managing directors and other employees as a core component of our overall compensation plan. The ability to offer equity as a long-term component of compensation helps us attract talent that is critical for our continued growth and helps to focus managing directors on the performance and financial goals the Company has committed to achieve. Ongoing long-term incentive compensation aligns the interests of our most senior and critical employees with our stockholders' interests and, over time, provides additional incentive compensation to the employees who we must motivate and retain to continue to build and grow the Company. We believe that our ability to offer long-term incentives to our senior executives and managing directors encourages a balanced focus between short- and long-term goals and performance that cannot be as effectively achieved with cash awards.

Recognizing the importance of retaining our valued employees at all levels, we also have a feature in our annual incentive program for employees below the managing director level who normally do not receive equity compensation. To encourage broad ownership of Huron stock and to offer an opportunity for all of our employees to have a stake in the Company's growth, employees may use a portion of their bonus to purchase our common stock. Huron partially matches employee purchases with common stock, subject to a minimum holding requirement, as well as a time-based vesting schedule. We believe that encouraging ownership among all of our employees builds the teamwork that is a fundamental value of the Company and will enhance retention of our employees.

For the reasons discussed above, we believe that it is in the best interests of the Company, its stockholders and its employees to increase the number of shares of common stock available for issuance under the Omnibus Plan. Accordingly, the board of directors has adopted the Second Amendment, subject to stockholder approval of

[Table of Contents](#)

the Omnibus Plan as amended through the Second Amendment. The summary of the Omnibus Plan, as amended, set forth below is qualified in its entirety by the full text of the Omnibus Plan as amended through the Second Amendment. A copy of the Omnibus Plan is filed as an exhibit to our registration statement on Form S-1/A filed with the SEC (File Number 333-115434), and a copy of the First Amendment is filed as an exhibit to our registration statement on Form S-8 filed with the SEC (File Number 333-137107). A copy of the form of Second Amendment is included as Appendix A to this Proxy Statement.

If the Omnibus Plan as amended through the Second Amendment is not approved by stockholders, the Omnibus Plan will continue in existence in its current state, and the board of directors will be forced to consider other alternatives to continue to attract, motivate and retain employees.

The approval of the Omnibus Plan as amended through the Second Amendment requires the affirmative vote of the holders of a majority of the total shares of common stock present in person or represented by proxy and entitled to vote on the proposal, provided that a quorum is represented at the meeting. Abstentions will have the same effect as a vote against ratification. Broker non-votes will not be considered shares entitled to vote with respect to approval of the proposal and will not be counted as votes for or against the proposal. Proxies submitted pursuant to this solicitation will be voted for the approval of the proposal, unless specified otherwise.

Except for increasing the number of shares of common stock authorized for issuance under the Omnibus Plan, no other changes were made by either the First Amendment or the Second Amendment.

Description of the Omnibus Plan

There are several types of awards that may be granted under the Omnibus Plan, as amended:

- stock options (including both incentive stock options, or ISOs, within the meaning of Section 422 of the Internal Revenue Code and nonqualified options, which are options that do not qualify as ISOs);
- stock appreciation rights;
- restricted stock;
- phantom stock;
- stock bonus awards; and
- other equity-based awards valued in whole or in part by reference to, or otherwise based on, our common stock.

As of March 10, 2009, a total of 677,130 shares of common stock are available for grant under the Omnibus Plan, subject to equitable adjustment upon certain corporate transactions or events. If this proposal is approved by stockholders, the number of shares available under the Omnibus Plan would increase to 3,177,130. Shares subject to an award that remain unissued upon the cancellation or termination of the award will again become available for award under the Omnibus Plan, as shall any shares subject to an award that are retained by us as payment of the exercise price or tax withholding obligations and previously owned shares surrendered to us as payment of the exercise price of an option to satisfy tax withholding obligations. In addition, to the extent an award is paid or settled in cash, the number of shares previously subject to the award shall again be available for grant pursuant to the Omnibus Plan.

The Omnibus Plan is administered by the Compensation Committee. Our executive officers, employees, outside directors and third-party consultants, numbering approximately 2,260 in total as of December 31, 2008, are eligible to receive awards under the Omnibus Plan at the discretion of the Compensation Committee. The Compensation Committee has the responsibility for interpreting the plan and determining all of the terms and conditions of awards made under the plan, including when they will become exercisable or otherwise vest. The Compensation Committee has the authority to accelerate the exercisability and/or vesting of any outstanding

[Table of Contents](#)

award at such times and under such circumstances as it deems appropriate. The Omnibus Plan may be further amended by our board of directors, subject to stockholder approval, where necessary to satisfy legal or regulatory requirements. The Omnibus Plan terminates not later than the tenth anniversary of its initial adoption. Awards granted before the termination of the Omnibus Plan may extend beyond that date in accordance with their terms.

Under the Omnibus Plan, as amended, the maximum number of shares of stock that may be granted to any individual during any calendar year may not exceed 500,000 shares (subject to equitable adjustment as provided). The maximum number of shares of stock to which Incentive Stock Options relate that may be granted under the Omnibus Plan, as amended, is 325,000 (subject to equitable adjustment as provided).

The Omnibus Plan is intended to permit the grant of performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code, which generally limits the deduction that we may take for compensation of our five most senior executive officers, excluding the chief financial officer. Under Section 162(m), certain compensation, including compensation based on the attainment of performance goals, will not be subject to this limitation if certain requirements are met. The exercisability or payment of awards that are intended to qualify as performance-based compensation may be based upon one or more business criteria as established by the Compensation Committee including:

- return on total stockholder equity;
- earnings or book value per share of Company stock;
- net income (before or after taxes);
- earnings before all or any interest, taxes, depreciation and/or amortization (“EBIT,” “EBITA” or “EBITDA”);
- return on assets, capital or investment;
- market share;
- cost reduction goals;
- earnings from continuing operations;
- levels of expense, costs or liabilities;
- department, division or business unit level performance;
- operating profit;
- sales or revenues;
- stock price appreciation;
- total stockholder return; and
- implementation or completion of critical projects or processes.

Where applicable, these business criteria may be expressed in terms of attaining a specified level of the particular criteria or the attainment of a percentage increase or decrease in the particular criteria, and may be applied to one or more of the Company, an affiliate of the Company, or a department, division or strategic business unit of the Company. The business criteria also may be applied to the performance of the Company relative to a market index, a group of other companies or a combination thereof, as determined by the Compensation Committee. The business criteria may be subject to:

- a threshold level of performance below which no payment will be made (or no vesting will occur);
- levels of performance at which specified payments will be made (or specified vesting will occur); and
- a maximum level of performance above which no additional payment will be made (or at which full vesting will occur).

[Table of Contents](#)

Each of the business criteria will be determined, where applicable, in accordance with generally accepted accounting principles and will be subject to certification by the Compensation Committee. The Compensation Committee has the authority to make equitable adjustments to the business criteria in recognition of unusual or non-recurring events affecting the Company or any of its affiliates or the financial statements of the Company or any of its affiliates, in response to changes in applicable laws or regulations, or to account for items of gain, loss or expense determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principles.

For awards that were made in 2008 to directors and named executive officers, you should read the discussions under “Proposal 1—Election of Directors; Compensation of Directors,” and “Executive Compensation—Summary Compensation Table” and “—Grants of Plan-Based Awards” above. See below for more information concerning the awards made in 2009.

PricewaterhouseCoopers LLP, which has been the independent auditor for the Company since its inception, has been appointed by the Audit Committee as auditor for the Company and its subsidiaries for the fiscal year ending December 31, 2009. This appointment is being presented to the stockholders for ratification. The ratification of the appointment of the independent auditor requires the affirmative vote of the holders of a majority of the total shares of Common Stock present in person or represented by proxy and entitled to vote on the proposal, provided that a quorum is represented at the meeting. Abstentions will have the same effect as a vote against ratification. Broker non-votes will not be considered shares entitled to vote with respect to ratification of the appointment and will not be counted as votes for or against the ratification. Proxies submitted pursuant to this solicitation will be voted "FOR" the ratification of PricewaterhouseCoopers LLP as the Company's auditor for the fiscal year ending December 31, 2009, unless specified otherwise.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S AUDITOR FOR THE FISCAL YEAR ENDING DECEMBER 31, 2009.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting and will be provided an opportunity to make a statement and to respond to appropriate inquiries from stockholders.

The following table presents fees for professional audit services rendered by PricewaterhouseCoopers LLP for the audit of the Company's annual financial statements for the years ended December 31, 2008 and December 31, 2007, and fees for other services rendered by PricewaterhouseCoopers LLP during those periods:

	<u>2008</u>	<u>2007</u>

Audit-Related Fees—due diligence related to mergers and acquisitions; accounting consultations and audits in connection with acquisitions; internal control reviews; attest services that are not required by statute or regulations; and consultation concerning financial accounting and reporting standards.

All Other Fees—any other work that is not audit, audit-related or a tax service.

The Audit Committee considers whether the provision of these services is compatible with maintaining the auditor's independence and has determined such services for fiscal 2008 and 2007 were compatible.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditor

The Audit Committee is responsible for appointing, setting compensation and overseeing the work of the independent auditor. The Audit Committee has established a policy regarding pre-approval of all audit and non-audit services provided by the independent auditor.

The Audit Committee, on a periodic basis, determines certain services that have the general pre-approval of the committee. The Audit Committee must separately pre-approve any services not receiving such general pre-approval. Requests for such approval must be submitted by both the auditor and the Chief Financial Officer and must include a joint statement as to whether, in their view, the request is consistent with the SEC's rules on auditor independence. No services are undertaken that are not pre-approved. The Audit Committee will establish pre-approved fee levels for all services to be provided by the auditor. On a periodic basis, the Chief Financial Officer and the auditor report to the Audit Committee regarding the actual spending for such projects and services compared to the approved amounts.

Report of the Audit Committee

The primary purpose of the Audit Committee is to assist the board of directors in its general oversight of the Company's financial reporting process. The Audit Committee conducted its oversight activities for Huron Consulting Group Inc. and subsidiaries ("Huron") in accordance with the duties and responsibilities outlined in the Audit Committee charter.

Huron's management is responsible for the preparation, consistency, integrity and fair presentation of the financial statements, accounting and financial reporting principles, systems of internal control and procedures designed to ensure compliance with accounting standards, applicable laws, and regulations. Huron's independent auditors, PricewaterhouseCoopers LLP, are responsible for performing an independent audit of the financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America.

The Audit Committee, with the assistance and support of the Huron finance department and management of Huron, has fulfilled its objectives, duties and responsibilities as stipulated in the Audit Committee charter and has provided adequate and appropriate independent oversight and monitoring of Huron's systems of internal control for the fiscal year ended December 31, 2008.

These activities included, but were not limited to, the following during the fiscal year ended December 31, 2008:

- Reviewed and discussed with management and the independent auditors the audited financial statements, the quarterly financial statements, and the quarterly and annual earnings press releases for the year ended December 31, 2008. Management has the primary responsibility for such financial statements and press releases.
- Discussed with the independent auditors the matters requiring discussion by Statement on Auditing Standards No. 61 "Communication with Audit Committees."
- Received the written disclosures and the letter from the independent auditors in accordance with the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence.

In reliance on the committee's review and discussions of the matters referred to above, the Audit Committee recommended to the board of directors that the audited financial statements be included in Huron's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, for filing with the Securities and Exchange Commission.
