Forward-Looking Statements

Statements in this presentation that are not historical in nature, including those concerning the company’s current expectations about its future results, are “forward-looking” statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as “may,” “should,” “expects,” “provides,” “anticipates,” “assumes,” “can,” “will,” “meets,” “could,” “likely,” “intends,” “might,” “predicts,” “seeks,” “would,” “believes,” “estimates,” “plans,” “continues,” “goals,” “guidance,” “target,” or “outlook” or similar expressions. These forward-looking statements reflect the company’s current expectations about future requirements and needs, results, levels of activity, performance, or achievements. Some of the factors that could cause actual results to differ materially from the forward-looking statements contained herein include, without limitation: failure to achieve expected utilization rates, billing rates, and the necessary number of revenue-generating professionals; inability to expand or adjust our service offerings in response to market demands; our dependence on renewal of client-based services; dependence on new business and retention of current clients and qualified personnel; failure to maintain third-party provider relationships and strategic alliances; inability to license technology to and from third parties; the impairment of goodwill; various factors related to income and other taxes; difficulties in successfully integrating the businesses we acquire and achieving expected benefits from such acquisitions; risks relating to privacy, information security, and related laws and standards; and a general downturn in market conditions. These forward-looking statements involve known and unknown risks, uncertainties, and other factors, including, among others, those described under “Item 1A. Risk Factors” in Huron’s Annual Report on Form 10-K for the year ended December 31, 2022 that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance, or achievements expressed or implied by these forward-looking statements. The company disclaims any obligation to update or revise any forward-looking statements as a result of new information or future events, or for any other reason.
Use of non-GAAP financial measures

In evaluating the company's financial performance and outlook, management uses EBITDA, adjusted EBITDA, adjusted EBITDA as a percentage of revenues, adjusted net income, adjusted diluted earnings per share, free cash flow, and free cash flow yield which are non-GAAP measures. Management uses these non-GAAP financial measures to gain an understanding of the company's comparative operating performance (when comparing such results with previous periods or forecasts). These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect the company's ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing their business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. Management believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does, if they so choose, and in comparing in a consistent manner Huron's current financial results with Huron's past financial results. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with accounting principles generally accepted in the United States.

Management has provided its outlook regarding adjusted EBITDA and adjusted diluted earnings per share, both of which are non-GAAP financial measures and exclude certain charges. Management has not reconciled these non-GAAP financial measures to the corresponding GAAP financial measures because guidance for the various reconciling items is not provided. Management is unable to provide guidance for these reconciling items because they cannot determine their probable significance, as certain items are outside of the company's control and cannot be reasonably predicted since these items could vary significantly from period to period. Accordingly, reconciliations to the corresponding GAAP financial measures are not available without unreasonable effort.
Our Business
Huron is a global professional services firm that partners with clients to develop growth strategies, optimize operations and accelerate digital transformation using an enterprise portfolio of technology, data and analytics solutions to create sustainable results for the organizations we serve.

Focused on Serving Enduring End Markets

2022 Revenue by Segment

- Total Revenues: $1.1B
- Healthcare: 47%
- Education: 32%
- Commercial: 21%

2022 Financial Results Demonstrate Strong Execution of our Strategy

Companywide Highlights

- 25% Revenue growth year-over-year
- 80 bps Adjusted EBITDA margin expansion year-over-year
- 31% Adjusted EPS growth year-over-year

Business Highlights

- 20% Healthcare segment revenue growth year-over-year
- 48% Education segment revenue growth year-over-year
- 18% Commercial segment revenue growth year-over-year
- 41% Digital capability revenue growth year-over-year

44% of 2022 revenues derived from our Digital capability

(1) Commercial segment includes financial services, energy and utilities and all other industries.
(2) Annual Commercial segment revenue growth excluding the impact of the Life Sciences divestiture, which closed in Q4 2021.

2. Internal analysis coupled with data from the Integrated Postsecondary Education System (IPEDS), Gartner’s 2023 Outlook Presentation: Enterprise IT Spending Forecast, and HERD and NIH Funding data.
Healthcare industry overview

Providing Proven and Innovative Solutions to Address Key Industry Challenges

- Increased economic challenges driven by strained cost structures and worsening payor mix
- Clinical delivery shifting from inpatient to outpatient settings
- Increased number of virtual care providers and disruptive entrants coming to market
- Consumer expectations shifting, including a desire for more virtual care
- Disruption in the workforce with personnel shortages, the war for talent and labor costs increasing
- Inadequate technology leading to a focus on digital transformation
- Greater focus on community impact, including social determinants of health and health equity

Healthcare Segment Revenue

On average, 90%+ of annual Healthcare industry segment revenues are derived from repeat clients

Revenue by Capability

Healthcare Digital revenues and revenue cycle managed services grew 44% and 42%, respectively in 2022 as compared to 2021
Driving future growth in Healthcare

**STRONG MOMENTUM TO DATE**

- Grew total Healthcare segment revenues 20% in 2022 as compared to 2021
- Grew Healthcare industry Digital revenues 44% in 2022 as compared to 2021
- Grew revenue cycle managed services offerings 42% in 2022 as compared to 2021
- Grew Healthcare industry consulting revenues 6% in 2022 as compared to 2021

**STRENGTHENING OUR LEADING MARKET POSITION**

- Accelerating growth in revenue cycle consulting and managed services
- Combining our strategic, digital and performance improvement capabilities to drive greater margin improvements for our clients
- Advancing people transformation capabilities to help clients achieve greater workforce resiliency

**GROWING OUR CONSULTING OFFERINGS**

- Expanding our federal health and payor offerings
- Integrating and advancing our healthcare-focused financial advisory offerings into our core offerings and client relationships
- Advancing our financial distressed healthcare, consumer affordability, and growth strategy-related offerings

**ADVANCING OUR DIGITAL CAPABILITIES**

- Growing market share in our core healthcare digital services (e.g., EHR, ERP, CRM, etc.) and products
- Further developing and deploying intelligent automation and analytics, including through our acquisition of Perception Health
- Advancing and expanding our digital capabilities, including in data and advanced analytics (AI/ML)
Providing Proven and Innovative Solutions to Address Key Industry Challenges

- Value of higher education and long-term sustainability continue to be in question
- Disruption in the workforce and the war for talent is increasing
- Enrollment challenges increasing despite rise in applications
- Conventional research funding sources are becoming less stable and more uncertain
- Continued governmental scrutiny, including attention to conflicts of interest and foreign influence
- Financial profile creates opportunity for strategic investment and transformation
- Increased pressure to modernize operations with shift to the cloud

Education Segment Revenue

- 4-Year Public Institution 41%
- 4-Year Private Institution 40%
- Research Institutes 5%
- Administrative Unit or System Office 9%

Revenue by Capability

- Consulting 49%
- Digital 47%
- Managed Services 4%
- Research 23%
- Strategy & Operations 21%
- Other 5%

Education Digital capability revenues and Education Consulting and Managed Services capability revenues grew 51% and 46%, respectively in 2022 as compared to 2021.

Worked with all 100 of the top 100 research universities in the U.S.
Driving future growth in Education

STRONG MOMENTUM TO DATE

• Grew total Education segment revenues 48% in 2022 as compared to 2021
• Grew Education industry Digital revenues 51% in 2022 as compared to 2021
• Grew research managed services offerings 72% in 2022 as compared to 2021
• Grew Education industry consulting revenues 44% in 2022 as compared to 2021

STRENGTHENING OUR LEADING MARKET POSITION

• Accelerating growth in research consulting and managed services
• Strengthening and expanding our strong competitive advantage in our strategy and operations offerings
• Continuing to gain momentum in student information systems (SIS) offerings, which represents a $6B total addressable market opportunity

GROWING OUR CONSULTING OFFERINGS

• Expanding our consulting offerings into new areas (e.g., athletics, M&A, talent strategy, etc.)
• Accelerating growth in student strategy, including new search capabilities acquired via Whiteboard Higher Education
• Advancing analytics capabilities to further differentiate our consulting offerings

ADVANCING OUR DIGITAL CAPABILITIES

• Continuing to grow our core education digital service offerings (i.e., ERP, EPM, CRM, etc.)
  • Traditional HCM/FIN ERP offerings alone represent a $4B total addressable market opportunity
• Further investing in our Huron Research Suite product to gain additional market share and support full research outsourcing
• Strengthening our global delivery capabilities
Providing Proven and Innovative Solutions to Address Key Industry Challenges

### Financial Services
- Growing financial and operational pressure stemming from continued economic uncertainty
- Increased scrutiny of capital adequacy being driven by current banking failures, compliance points of failure, presumably additional regulation

### Energy and Utilities
- Strong financial positions fueling opportunistic M&A
- Increasing operational pressures from delayed capital spending stemming from lingering supply chain issues, inflation and the possibility of a recession

### Public Sector
- Increased congressional oversight, technology upgrade requirements, and regulatory constraints
- Significant opportunity to advance public sector operations to more closely align with the private sector

### All Industries
- Continued shift to the cloud and digitization
- Unleashing the next wave of productivity in increasingly competitive and financially challenging environments
- Continued focus on the power of data, advanced analytics and automation

Our Proven Results
Delivering proven results for our clients

**Illustrative case studies**

Huron partnered with [Virginia Hospital Center](#) (VHC) had successfully completed several internal initiatives to prepare for the future but wanted to realize further gains by improving the patient and family experience, increasing capacity and providing more efficient care. Following a successful revenue cycle engagement, VHC partnered with Huron to transform its care delivery in the inpatient and emergency department settings. The goal of the work was to improve the patient and family experience, increase capacity and provide more efficient care. Through interdisciplinary rounds, comprehensive patient flow reporting, standardizing case management and technology optimization, Huron helped VHC reduce length of stay, increase accuracy in prediction of discharges, and achieve significant growth in nursing, physician and discharge composite HCAHPS scores. The result was a 1/3 day reduction in severity adjusted length of stay per patient, the creation of capacity to serve approximately 1,000 additional patients annually and improved resource utilization.

The [University of Miami](#) partnered with Huron and leveraged Salesforce technology to create 'Canes Central, a new platform utilized to create an online self-service portal and to empower staff to personalize student service in an all new, state-of-the-art facility. The university worked with Huron and used a blended team approach that integrated stakeholders across the university to achieve the project’s goal of creating unique, personalized experiences that would give students an expanded range of options for obtaining support. The project’s success led to energized institutional innovation, with the university tracking indicators to ensure that engagement and satisfaction among students remain strong. The 'Canes Central platform has helped staff handle more than 13,000 student interactions in the first nine weeks of operation, with 94% reporting they are highly satisfied with the platform.

A large regional health system hired Huron to evaluate its consumer strategy, including technology capabilities, in order to create a sustainable plan for enterprise-wide consumer transformation. The client’s goals included: improving the consumer experience, delivering on its brand promise for personalized care, and solidifying its position as the provider of choice within a highly competitive market. Huron's team used data-driven insights from stakeholder analysis and research to develop a consumer journey and digital transformation roadmap. Prioritized areas for improvement included: patient and provider technologies, data management, and analytics. They also identified cost-saving and organizational alignment opportunities by reviewing technology, governance, and finances. By benchmarking against digital best practices, the team set measurable targets for technology, operations, strategy, and resources. This assessment resulted in a roadmap that still guides the health system’s digital and consumer journey.

Note: For additional case studies, visit the [Insights page](#) on the Huron website.
Delivering proven results for our clients

**Illustrative case studies**

Huron partnered with The Williams Companies Inc., one of the largest energy infrastructure companies in the United States, to help it reduce its compliance cost, increase operational efficiency, and gain timely data insights. In partnership with Huron, Williams implemented the largest Oracle Cloud solution in the energy and utility industry to boost its organizational resilience by standardizing processes across various business units. Williams’ transformation progressed in a phased approach with Huron’s CLEAR methodology, focusing on a business process-centric solution design, assurance validated through multiple testing cycles, and client enablement. This modern solution improved financial and operational efficiency by 20%, saved millions of dollars by retiring 13 legacy applications, reduced application costs and complexity, and increased business agility.

**One of the largest U.S. mortgage lenders** partnered with Huron to implement Workday’s financial suite and analytics solution to handle increasing data volumes, support regulatory reporting, and future-proof its business by enabling greater efficiency, scalability, and agility across the enterprise. The engagement involved automating and streamlining financial operations, modernizing financial reporting and analytics, integrating Workday with more than 40 other systems, and implementing a robust change management strategy. As a result, the company achieved 220% YoY growth, consolidated 4 million loans annually, reduced financial close time by 40%, and enhanced reporting at the organizational level to make more informed business decisions.

Facing outdated technology and fragmented administrative processes, The Fedcap Group partnered with Huron to embark on a digital transformation journey. The aim was to replace their legacy technology with a centralized, cloud-based Oracle ERP financial and procurement solution, a new CRM system, a modernized HCM system, and a new EPM solution. The company sought centralized data to enable continuous innovation in the face of disruption. Huron helped by generating top-down support, unlocking insights into the unique attributes of the client base, and investing in design that advances the institutional vision long after implementation. The Fedcap Group has seen significant returns on its cloud investment due to the solid groundwork it built during the ERP, HCM, and CRM implementation.

<sup>(1)</sup> Annual Commercial segment revenue growth excluding the impact of the Life Sciences divestiture, which closed in Q4 2021
Building on our primary revenue drivers to achieve consistent revenue growth

Low double-digit annual growth target from 2022 to 2025 expected to be driven by organic revenue

- Strong market tailwinds create growth opportunities in each of our core end markets and capabilities
- Deep industry client relationships with opportunities in which to expand wallet share by strengthening collaboration across industries and capabilities
- Accelerating growth in areas with recurring revenue

Guidance is as of May 2nd, 2023
Building on our primary revenue drivers, including our foundation of recurring revenue, to drive consistent growth

</tbody>
</table>

88% of Huron’s revenue in 2022 was from repeat clients, including 12 clients who have worked with Huron each year since 2004.

Multi-year strategic and digital transformations have historically represented more than 25% of total company revenues.

Managed services generated 7% of total company revenues in 2022 of which nearly 50% was recurring.

Healthcare and Education products generated approx. 6% of total company revenues in 2022.

Other recurring revenue models generated approx. 3% of total company revenues in 2022.

**ANNUAL RECURRING REVENUES GREW 5% OVER 2021, COMPRISING 13% OF TOTAL COMPANY REVENUES IN 2022**
Adjusted EBITDA margin % is on a trajectory to achieve mid-teens % in 2025

Committed to annual expansion while maintaining flexibility to optimally manage the business:

- Operating income margin expansion driven by improved utilization and pricing and shift in business mix
- Improved SG&A leverage to continue as we scale the business
- Commitment to margin expansion includes continued investments in organic and inorganic growth and mix shift to digital offerings

---

1. See Appendix for a reconciliation of adjusted EBITDA margin %, a non-GAAP measure.
2. Business mix shift represents the impact of the rapid growth of our Digital capability, which has lower margins than our Consulting and Managed Services capability.
Rapidly growing global delivery platform enables Huron to accelerate growth and expand margins
Healthy balance sheet and strong cash flows create flexibility to return capital to shareholders and drive future growth

**Free Cash Flow (3)**

Guidance

- **Historical and Expected Future Deployment of Capital**

<table>
<thead>
<tr>
<th>2022</th>
<th>5-Year Framework (2022 to 2027)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• 63% debt paydown</td>
</tr>
<tr>
<td></td>
<td>• 30% share repurchases</td>
</tr>
<tr>
<td></td>
<td>• 6% capital expenditures</td>
</tr>
<tr>
<td></td>
<td>• 1% M&amp;A</td>
</tr>
<tr>
<td></td>
<td>• Target 25%-50% in annual share repurchases</td>
</tr>
<tr>
<td></td>
<td>• 50%-75% available to invest in our business, inclusive of M&amp;A and organic investment in our consulting, digital and managed services capabilities</td>
</tr>
</tbody>
</table>

- **Strategic capital deployment framework balances growth, flexibility and return of capital to shareholders**
  - Based on our revenue and adjusted EBITDA margin % expectations, we anticipate having **$750 million to $1 billion available for deployment** over the five-year period ending in 2027
  - Targeting 25%-50% of deployed capital returned to shareholders via share repurchases through 2025 (2)
  - Invest in the business to strengthen our competitive position, including through the execution of strategic, tuck-in M&A
  - Manage debt levels to achieve approximately 2.0x leverage ratio

---

(1) 2021 free cash flow is adjusted for the impact of our Life Sciences divestiture, which excludes transaction-related employee and third-party costs as well as estimated tax payments and net working capital adjustments. 2021 free cash flow yield is lower than historical amounts, reflecting record low DSO as of December 31, 2020 and the pull forward of certain cash receipts into Q4 2020, the repayment in 2021 of 2020 FICA deferrals under the CARES ACT, and a DSO higher than our target of 60 days as of December 31, 2021 due to the impact of certain larger projects with extended contractual payment terms.

(2) As of December 31, 2022, the Company had $109M remaining under its share repurchase authorization.

(3) See Appendix for a reconciliation of free cash flow and free cash flow yield, both of which are non-GAAP measures.

(4) Free cash flow from operating activities of $130 million to $150 million less capital expenditures of $30 million to $35 million; guidance as of May 2nd, 2023.
Disciplined approach to M&A will continue to provide opportunities to accelerate growth

Recent Acquisitions

Criteria used to evaluate acquisition opportunities

1. **Aligns with our business strategy**
   - Expands our capabilities into adjacent offerings
   - Strengthens our industry expertise

2. **Enhances our financial strategy**
   - Has a strong growth trajectory on a standalone basis
   - Is accretive to EBITDA margins

3. **Are a strong cultural fit**
   - Two-thirds of our recent acquisitions were Huron partners or teams we worked side-by-side with at a client prior to discussing a potential transaction

Strengthening our track record of success

- Huron named Informatica’s 2022 North America Partner of the Year, building on the combined strength of Huron’s data management and analytics capabilities and our acquisitions of Unico Solution and AIMDATA (closed in 2021 and 2022, respectively)

- Huron is the market leader ranked #1 in the Digital Rounding – 2023 Best in KLAS® report, building on Huron’s acquisition of MyRounding (closed in 2016)
A clear and compelling investment thesis

**A PREAMINENT GLOBAL CONSULTANCY AND DIGITAL PARTNER**

Leading global consultancy with deep industry focus and growing digital and managed services capabilities

**MEANINGFUL GROWTH OPPORTUNITY IN OUR CORE INDUSTRIES**

Operating in a large, growing professional services industry with core end markets facing significant disruption and/or regulatory change

**EXPANSION OF INDUSTRY EXPERTISE AND CAPABILITIES**

Supporting sustained and consistent revenue growth through expansion in areas of greatest growth potential, capitalizing on industry tailwinds and growing global digital platform

**MATERIAL MARGIN EXPANSION OPPORTUNITY**

New operating model and focused execution on improved profitability creates significant room for margin expansion

**STRONG CASH FLOW AND BALANCE SHEET**

Disciplined and balanced capital allocation framework underscores commitment to growth and returning capital to shareholders
