CHICAGO – February 20, 2013 – Huron Consulting Group Inc. (NASDAQ: HURN), a leading provider of business consulting services, today announced its financial results for the fourth quarter and full year ended December 31, 2012.

“Continued market demand for our services enabled us to report fourth quarter results with the highest quarterly revenues in Huron’s history. The pace and depth of change in many of our core markets is dramatic, and Huron remains well positioned to help our clients as they transition through uncertain times. In particular, our Health and Education practices are thriving in an environment that reflects the pressures on hospitals and universities to reduce cost and increase quality. We expect the demand for our portfolio of services to be strong throughout 2013,” said James H. Roth, chief executive officer and president, Huron Consulting Group.

**Fourth Quarter 2012 Results**

Revenues for the fourth quarter of 2012 were \$180.8 million compared to \$163.0 million for the fourth quarter of 2011. The Company’s fourth quarter 2012 operating income was \$34.5 million compared to \$18.6 million in the fourth quarter of 2011. Net income from continuing operations was \$18.6 million, or \$0.83 per diluted share, for the fourth quarter of 2012 compared to \$7.8 million, or \$0.35 per diluted share, for the same period last year. Operating income and net income from continuing operations in the fourth quarter of 2012 and 2011 include \$0.8 million and \$2.5 million, respectively, of restructuring charges.

Fourth quarter 2012 earnings before interest, taxes, depreciation and amortization (“EBITDA”)<sup>(7)</sup> was \$40.2 million, compared to \$24.8 million in the comparable quarter last year.

In evaluating the Company's financial performance, management uses non-GAAP financial measures, which exclude the effect of the following items (in thousands):

### **Operating Segments**

Huron's results reflect a portfolio of service offerings focused on helping clients address complex business challenges. The Company has three operating segments as follows: Health and Education Consulting, Legal Consulting, and Financial Consulting, representing 67.0%, 29.5% and 3.5% of full year 2012 total revenues, respectively.

Financial results by segment are included in the attached schedules and in Huron's forthcoming Form 10-K filing for the year ended December 31, 2012 ("2012 Form 10-K").

### **2013 Operating Segments**

In the first quarter of 2013, the Company reorganized its internal financial reporting structure. Under the new structure, the Company will begin reporting information as five operating segments: Huron Healthcare; Huron Education and Life Sciences; Huron Legal; Huron Financial; and an all other category.

Beginning in 2013, the current Health and Education Consulting segment will become two separate segments: Huron Healthcare and Huron Education and Life Sciences. These practices continue to share a significant number of academic medical center clients and will continue to closely collaborate in the market. The Legal Consulting segment will now be referred to as Huron Legal and the Financial Consulting segment will now be referred to as Huron Financial. The structure of the Legal Consulting and Financial Consulting segments remains unchanged. In addition, certain immaterial practices, which were historically part of our Health and Education Consulting segment, will be combined and disclosed in an all other category. While consolidated results will not be impacted, the Company will recast historical segment information during 2013 for consistent presentation.

### **Outlook for 2013**

Based on currently available information, the Company provided guidance for full year 2013 revenues before reimbursable expenses in a range of \$655.0 million to \$685.0 million. The Company also anticipates EBITDA<sup>(7)</sup> in a range of \$118.5 million to \$127.0 million, Adjusted EBITDA<sup>(7)</sup> in a range of \$120.5 million to \$129.0 million, GAAP diluted earnings per share in a range of \$2.25 to \$2.45, and non-GAAP adjusted diluted earnings per share<sup>(7)</sup> in a range of \$2.45 to \$2.65.

Management will provide a more detailed discussion of its outlook during the Company's earnings conference call webcast.

## Fourth Quarter and Full Year 2012 Webcast

The Company will host a webcast to discuss its financial results today, February 20, 2013, at 5:00 p.m. Eastern Time (4:00 p.m. Central Time). The conference call is being webcast by Thomson and can be accessed at Huron Consulting Group's website at <http://ir.huronconsultinggroup.com>. A replay will be available approximately two hours after the conclusion of the webcast and for 90 days thereafter.

## Use of Non-GAAP Financial Measures<sup>(7)</sup>

In evaluating the Company's financial performance and outlook, management uses EBITDA, Adjusted EBITDA, Adjusted EBITDA as a percentage of revenues, adjusted net income from continuing operations and adjusted diluted earnings per share from continuing operations, which are non-GAAP measures. Management believes that such measures, as supplements to operating income, net income from continuing operations and diluted earnings per share from continuing operations and other GAAP measures, are useful indicators for investors. These useful indicators can help readers gain a meaningful understanding of our core operating results and future prospects without the effect of non-cash or other one-time items and the Company's ability to generate cash flows from operations that are available for taxes, capital expenditures, and to repay debt. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with accounting principles generally accepted in the United States.

- (1) Reflects the reclassification of our healthcare valuation consulting practice from our Health and Education Consulting segment to our Financial Consulting segment in conjunction with an internal reorganization during the first quarter of 2012.
- (2) Consists of our full-time professionals who provide consulting services and generate revenues based on the number of hours worked.
- (3) Utilization rate for our full-time billable consultants is calculated by dividing the number of hours all our full-time billable consultants worked on client assignments during a period by the total available working hours for all of these consultants during the same period, assuming a forty-hour work week, less paid holidays and vacation days.
- (4) Average billing rate per hour for our full-time billable consultants is calculated by dividing revenues for a period by the number of hours worked on client assignments during the same period.
- (5) Consists of consultants who work variable schedules as needed by our clients, as well as contract reviewers and other professionals who generate revenues primarily based on number of hours worked and units produced, such as pages reviewed and data processed. Also includes full-time employees who provide software support and maintenance services to our clients.
- (6) The goodwill impairment charge is not allocated at the segment level because the underlying goodwill asset is reflective of our corporate investment in the segments. We do not include the impact of goodwill impairment charges in our evaluation of segment performance.

(7) In evaluating the Company's financial performance, management uses earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted EBITDA, adjusted EBITDA as a percentage of revenues, adjusted net income from continuing operations, and adjusted diluted earnings per share from continuing operations, which are non-GAAP measures. Our management uses these non-GAAP financial measures to gain an understanding of our comparative operating performance (when comparing such results with previous periods or forecasts). These non-GAAP financial measures are used by management in their financial and operating decision-making because management believes they reflect our ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing our business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. We believe that these non-GAAP financial measures provide useful information to investors and others (a) in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does, if they so choose, (b) in comparing in a consistent manner Huron's current financial results with Huron's past financial results and (c) in understanding the Company's ability to generate cash flows from operations that are available for taxes, capital expenditures, and debt repayment. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with accounting principles generally accepted in the United States.

- (8) In evaluating the Company's outlook, management uses projected EBITDA, projected adjusted EBITDA, projected adjusted EBITDA as a percentage of revenues, projected adjusted net income from continuing operations and projected adjusted diluted earnings per share from continuing operations, which are non-GAAP measures. Management believes that the use of such measures, as supplements to projected net income from continuing operations and projected diluted earnings per share from continuing operations and other GAAP measures, are useful indicators for investors. These useful indicators can help readers gain a meaningful understanding of the Company's core operating results and future prospects without the effect of non-cash or other one-time items and the Company's ability to generate cash flows from operations that are available for taxes, capital expenditures, and to repay debt. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with GAAP.
