Second Quarter 2015

# Experience. Redefined.®

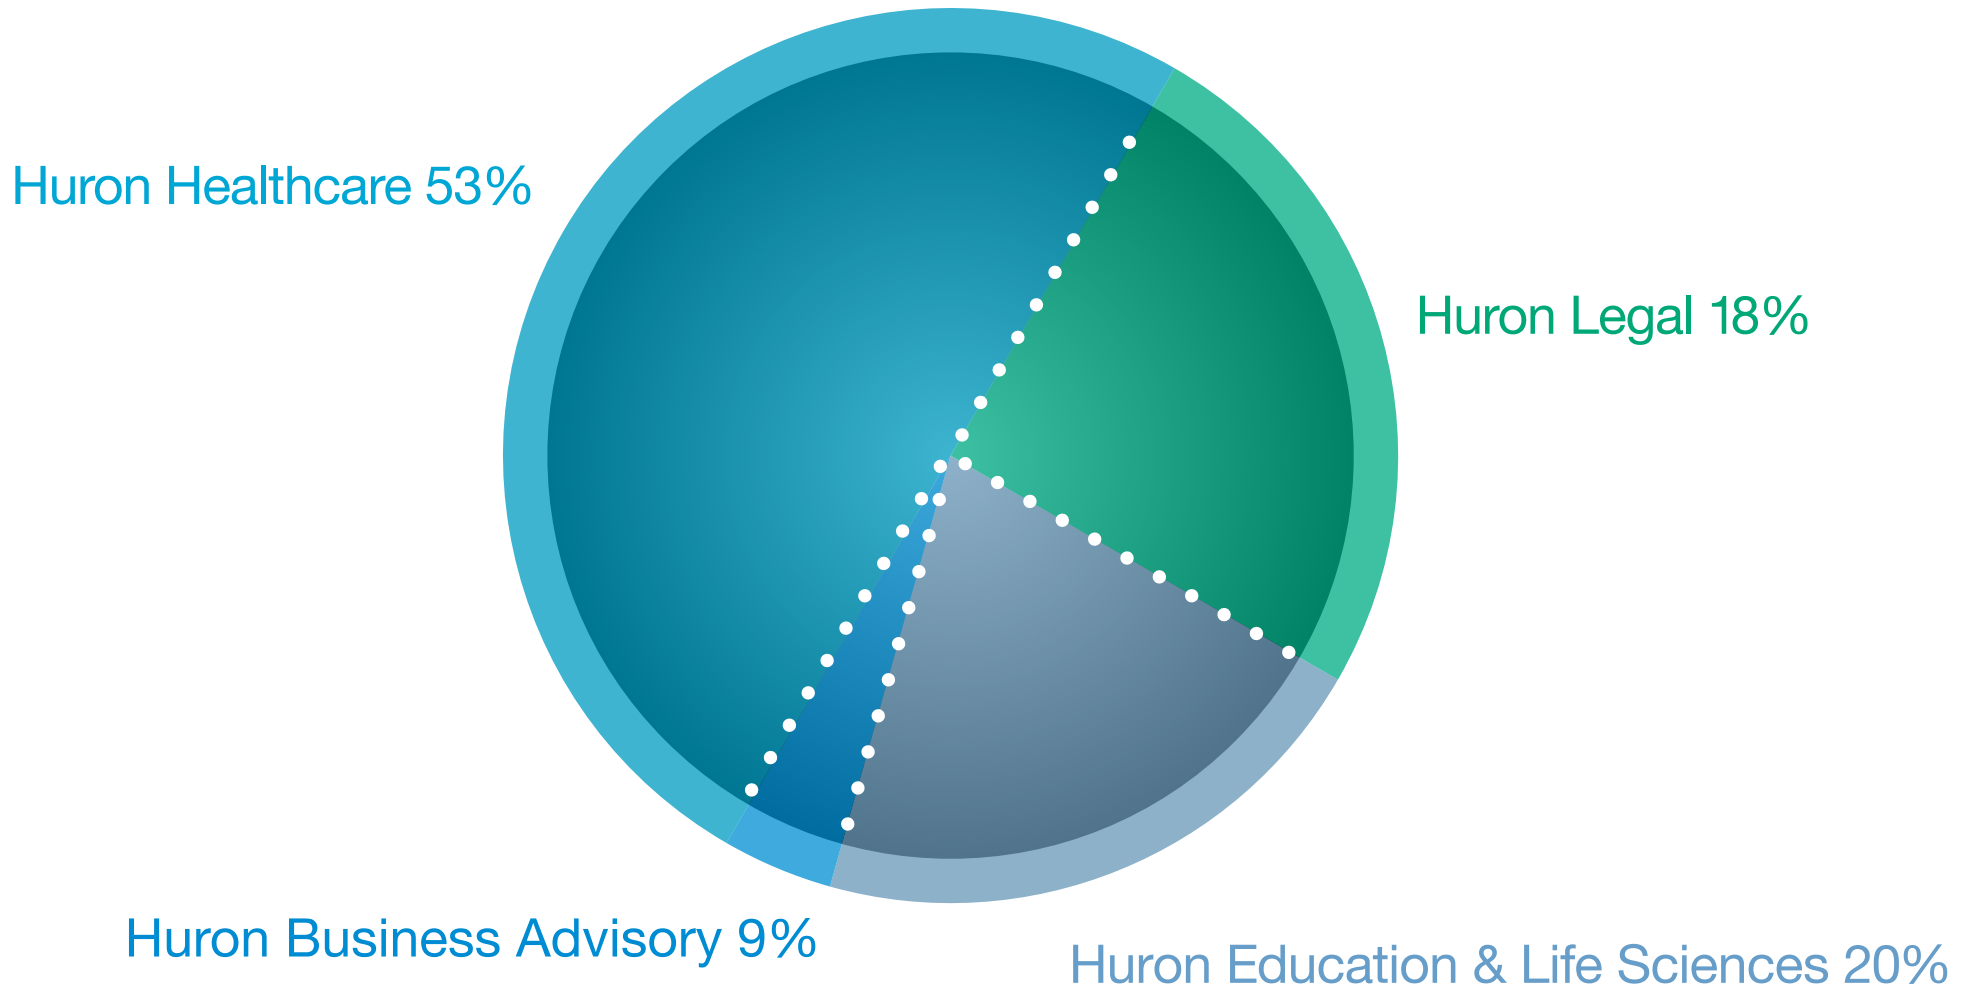

Statements in this press release that are not historical in nature, including those concerning the Company's current expectations about its future requirements and needs, are "forward-looking" statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as "may," "should," "expects," "provides," "anticipates," "assumes," "can," "will," "meets," "could," "likely," "intends," "might," "predicts," "seeks," "would," "believes," "estimates," "plans" or "continues." These forward-looking statements reflect our current expectations about our future requirements and needs, results, levels of activity, performance, or achievements. Some of the factors that could cause actual results to differ materially from the forward-looking statements contained herein include, without limitation: failure to achieve expected utilization rates, billing rates and the number of revenue-generating professionals; inability to expand or adjust our service offerings in response to market demands; our dependence on renewal of client-based services; dependence on new business and retention of current clients and qualified personnel; failure to maintain third-party provider relationships and strategic alliances; inability to license technology to and from third parties; the impairment of goodwill; various factors related to income and other taxes; difficulties in successfully integrating the businesses we acquire and achieving expected benefits from such acquisitions; risks relating to privacy, information security, and related laws and standards; and a general downturn in market conditions. These forward-looking statements involve known and unknown risks, uncertainties and other factors, including, among others, those described under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. We disclaim any obligation to update or revise any forward-looking statements as a result of new information or future events, or for any other reason.

## Reconciliations of Non-GAAP Measures to Comparable GAAP Measures

In evaluating the Company's financial performance, management uses earnings before interest, taxes, depreciation and amortization ("EBITDA"), Adjusted EBITDA, Adjusted EBITDA as a percentage of revenues, Adjusted net income from continuing operations, and Adjusted diluted earnings per share from continuing operations, which are non-GAAP measures. Our management uses these non-GAAP financial measures to gain an understanding of our comparative operating performance (when comparing such results with previous periods or forecasts). These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect our ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing our business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. We believe that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does, if they so choose, and in comparing in a consistent manner Huron's current financial results with Huron's past financial results. Investors should recognize that these non-GAAP measures might not be comparable to similarly titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with accounting principles generally accepted in the United States.
